DETAILED ACTION

This Office action is responsive to the amendment filed on May 17, 2006.

1. Claims 1-8, 10-19 and 27-34 are allowed and renumbered 1-26, respectively.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either individually or in combination fails to anticipate or fairly suggest the method steps of: a) *etching the wafer or the semiconductor device prior to the step of coating the entire surface of the wafer or the semiconductor device with the organic protective layer*, as recited in claims 1 and 11; b) *the step of coating of the wafer being repeated after the wafer has been mounted on a carrier*, as recited in claim 19; and c) *performing a soldering operation at the connection area, wherein the soldering operation removes the organic protective layer from the connection area so that solder material adheres on the connection region*, as recited in claim 27; especially when these limitations are considered within the specific combination claimed.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
